Agenda Item	Conversations	Actions	
Waste management Project as presented by Paul Willis July 2017.	<p><i>After a brief overview of what was on offer from the July 17 meeting it was prudent to develop the objective of the project. It was agreed that it was more than an attempt to inform and educate Sompting residents regarding recycling, it was about getting SBL noticed around the community and communicating with every household.</i></p> <p><i>Jim had brought a handout where he pointed out that we may be infringing on the council's statutory duty of waste collection, this was discussed and the partnership agreed that it was over and above their duty and was optional. Jim to check what St Matthews are doing along the same lines and to get clearance from Big Local.</i></p> <p><i>Notwithstanding the above It, was agreed to go ahead with the project in principle following these areas:</i></p> <ul style="list-style-type: none"> <li>• <i>SBL branding on 100% of merchandise etc. When promoting the project.</i></li> <li>• <i>Door stepping exercise to be done using AWC personnel with SBL branding on for example their hi-vis vests. Other items that may be included on the door step, utilities and tariffs and signposting where applicable to third party support.</i></li> <li>• <i>Clothes was also an area where recycling can be done in Sompting, every quarter SBL branded bags would be posted and collected (SBL could do the collections) Further work on the process to turn clothes into money minus costs so that the money goes back into the Action Grants budget.</i></li> <li>• <i>SBL would also take advantage of the educational trips to recycling plants, both partnership and interested residents.</i></li> </ul>		Jim.
