SBL to subsidize and a token amount of £5,00 would be payable (same as Wembley)	Emma to discuss with Abby for the detail.
Health & Well Being	Whilst good progress was made a local level, once the SLA was submitted to AWDC and the CCG (Clinical Commissioning Group) the process has been slowed, this should resolve itself in Dec 17 ready for a Jan 18 launch.	H&WB sub Group.
Admin up-date	Lot of work done on Christmas Events, and Wembley trips. Met with Sustainable Sussex to look at proposed community farm. Received training regarding Makerble. Been in contact with various groups in Sompting. Visited and spoken to Team Sport regarding go-karting in Jan.	
Community Development worker	A discussion took place on the rational behind the appointment, the conclusion was we still keep looking for an person, we also look at personal development for the Admin officer. When the CDW post was thought about the admin at SBL was in need of organisation in a big way, this has now been done and is much more streamlined, the role could be filled by the Admin staff, however this may mean more voluntary work being done by the SBL members.	On-Going.
Residents e-mail to SBL	Millfield, covered as above Public seat... Mel has a contact and will send to Emma Poppy Bench on or near the Sompting Village sign, Emma to price Other items were mentioned e.g. a base costing £700.00 to mount a Scottish 3 soldier bench, may need permission from west Sussex Community Notice boards, Halewick park, Millfield, Co-op as this is a very bust pedestrian area, again permission may have to sort... However, all of these items require pursuing regarding costings, timing etc for the next meeting.	Emma with support
Makerble	Trial ongoing and evaluation in the future, could be Big Lottery grant that could go towards this project.	Emma/Harry
Possible new member	An application was received from a AWC Councillor to be on partnership, this was discussed and considered, and it was agreed that we already have a AWCC on board and that this applicant may best serve the community in his current role rather than attempting to spread his time more thinly.	
Transport (Billy)	Reference the comment at the beginning, it was suggested and discussed that billy now is replaced by a better model with lower mileage etc. Pat has done some homework and located a Dorset company who would sell at a competitive price Circa £12k with free SBL livery on the sides. "Billy" would be donated to "Sustainable Sussex" to support them in their up and coming project.	
H J ctr cafe	A small group visited Heene community centre with a view to taking this template and setting up similar at the HJC thus providing a centre I Sompting where the community could meet over tea, coffee and snacks in a pleasant environment. This would require capital investment	

	and planning, it's in its early stages, however there maybe opportunities for funding via Rampion off shore wind farm who are putting up cash for just this type of project, it could also support Sustainable Sussex in their ambitions.
